

Spring 2016 Journal Club Archive

Friday, April 29 ... Please join us for our **last journal club** of the semester. We will be discussing a paper coauthored by next week's EEB seminar speaker, [Michael Nachman](#), titled "*Inferring the history of speciation in house mice from autosomal, X-linked, Y-linked and mitochondrial genes.*" **Jocelyn Holt** will be leading this week's discussion. All faculty, post docs and graduate students interested are welcome. Journal club takes place at 4pm in ILSB 3145. [[Get the paper.](#)]

Friday, April 15 ... Please join us for journal club to discuss "Possible character displacement of an introduced mongoose and native marten on Adriatic Islands, Croatia", co-authored by next week's EEB seminar speaker [Dan Simberloff](#). EEB Journal Club is open to faculty, post-docs and graduate students of the EEB type. ILSB 3145. [[Get the paper.](#)]

Friday, April 8 ... This week in the EEB journal club we will be discussing "Asexual queen succession in the subterranean termite *Reticulitermes virginicus*, by the EEB seminar speaker Edward Vargo. Kristina Chyn will lead this week's discussion. [[Get the paper.](#)]

Due to the change to the ABS seminar, Journal Club will start at 4:30pm this week. Journal club takes place in ILSB 3145. Graduate students, post-docs and faculty of the EEB nature are all welcome.

Friday, March 24 ... This week in journal club we will be discussing a paper by [Dr. Rowan Martindale](#) and colleagues on the sponge takeover. In case you missed the T-Rex on campus earlier this week, here's a chance to engage in some Jurassic fun. It's a quick read, with lots of photos! See you tomorrow at **4 pm** in **ILSB 3145**. [[Get the paper.](#)]

Friday, March 18 ... No journal club, Spring Break

Friday, March 4 ... This week **Humberto Montoya** will be leading our journal club discussion on a very recent paper co-authored by next week's seminar speaker [Todd Schlenke](#). The title of the paper is "*Evolution of behavioral and cellular defenses against parasitoid wasps in the Drosophila melanogaster subgroup.*" Journal club is **4 - 5pm on Friday in ILSB 3145**. See you there! [[Get the paper.](#)]

Friday, February 26 ... EEBISO will be holding journal club to discuss a (very) recent paper by [next week's \(February 29\) seminar speaker Eileen Hebets](#). Hot off the press, [this paper](#) titled, "*Benefits of size dimorphism and copulatory silk wrapping in the sexually cannibalistic nursery web spider, Pisaurina mira*" is already receiving some media attention and we thought it would be fun to see what the fuss was all about. Also included is a [separate attachment of detailed methods](#). As usual, Journal Club takes place at **4 pm, ILSB 3145** and is open to graduate student, faculty and post-docs.

Friday, February 5 ... This week we will be discussing a paper by our next [EEB seminar speaker Jacquelyn Grace](#) (who is also a job candidate for the Department of Wildlife and Fisheries). The paper is titled "Hormonal effects of maltreatment in Nazca booby nestlings: Implications for the 'cycle of violence.'" EEB journal club takes place at **4pm in ILSB 3145** on Fridays. Hope to see you all there!
